

EDU 241: Educational Technology

Assignment: Technology Page

Name: _____

I. Elements _____ / **10 points**

All required elements are included:

(1) How can technology be used to enrich student learning? Use at least two specific examples of a technology environment as a framework for addressing this question (i.e. Smartboard, Adventure Learning, Powerpoint presentations, Concepts Maps, Clickers, Garageband, etc).

(2) What are the critical social, ethical, legal and human issues surrounding the use of technology in PK-12 schools? (you do not need to address all four; choose ONE that you think is most important to consider)

(3) In addition to addressing these two questions, make sure to mention this course (EDU-241) and its purpose. Describe how the EDU 241 projects and discussion topics have facilitated your understanding of how to best integrate educational technology into the classroom.

(4) As with your other pages, the Technology Projects page should contain an appropriate graphic and quote.

(5) This page should include two links to technology projects created in EDU-241: (1) WebQuest, along with a brief description of the intended audience/grade level; (2) Smartboard Presentation, along with a brief description of the activity (note: this link is a new addition as of the Spring 2011 semester, so example electronic portfolios will not have this link)

Comments:

II. Format _____ / **5 points**

Layout and structure are easy to read and professional

Format and design are appropriate

Comments:

III. Editing _____ / **5 points**

Editing and writing are flawless
