

**You should be able to:**

1. Discuss the effect of extrinsic motivation on learning from a behavioral view.
2. Identify the key assumptions of Maslow's theory of motivation (i.e. the Humanistic view of motivation) and its implications.
3. Discuss the attribution theory in the context of explaining how students attribute their success and failures.
4. Identify the key components of the Self-determination theory.
5. Differentiate between entity and incremental views of intelligence.
