

Spring Registration

- You're about to receive an email. It's meant to send to all my advisees. They will all sign up for a time slot to consult with me regarding Spring registration.
- Ignore that email if you want, as FTS-100 students all get this Sunday night for registration (and no other times).
- While my other advisees, get Friday, Saturday, and next Tuesday and Thursday.
- Thus, sign up for a Sunday time NOW (the sign up sheet is being passed around)

Library Day

- The purpose of today is for you to start on your research for your final project.
- You are supposed to use different techniques in electro-acoustic in your own composition.
- You are also supposed to write about what techniques you had used in your own composition.
- So, you need to do research on these techniques.
- Today is set up to get you started.

Library Day

- To start, do research on the following two techniques:
 - Musique Concrete
 - Sampling
- Take notes, write down the book's title and page number if you plan to quote (or cite) this book in your writing.
