ORGANIZATION AND PRESENTATION

5 structure of lab clear and logical with appropriate section headings and captions

5 Is the Scheme code indented properly (and in a fixed-width font, e.g., courier)?

5 Are arguments and procedures named well?

Programming tasks – As always, additional points are marked off for bugs undiscovered (i.e., unreported).

25 movies-satisfying

10 Extend matches? to check for _ wildcard. (Tests should return some #t and some #f)

20 substitutions-in-to-match

−1 to −3 Included lots of unnecessary code which should only be in matches?

Bug: The base case returns #t rather than '(). Most of the other patterns won’t work. Deduct 10 if bug is reported, 15 otherwise. A test which called substitutions-in-to-match directly should have helped you find this bug.

5 (equal? (car question) (car pattern))

5 (equal? (car pattern '...))

5 (list? (car pattern))

5 (equal? (car pattern '_)) check that this matches only one word.

30 movie-p/a-list

7 (who acted in ...)

15 (what (movie movies) (was were) made (in before after since) _)

8 (what (movie movies) (was were) made between _ and _)
